

ARCADIAN COURT

Virtual Presentation Stage

While getting together may look different than before, the need to gather and connect has never been greater. Oliver & Bonacini and Encore are ready to help you plan your next virtual event using our fully outfitted presentation stage at one of Toronto's most sought-after venues. Arcadian Court's presentation stage is the perfect space for your virtual event headquarters, providing high-quality streaming solutions with a professional look. The stage is set in Arcadian's main ballroom, with over 8,000 sq.ft of space, should you be looking to host a live audience, or a hybrid event, with some onsite guests to create the energy of a live event, while provided access to those who cannot travel to join virtually. For guests who cannot join in person, O&B's experienced catering team can deliver meals or snacks straight to each virtual attendee's door.

Bring a taste of togetherness, even while staying apart.

WHAT IS A VIRTUAL EVENT?

Virtual events take many shapes and sizes, including video conferencing to multiple locations or webcasting a keynote speaker who could not make it to a live event. Virtual events typically include a live-streaming portion, along with pre-recorded content, to create a seamless event.

To keep your attendees engaged, don't miss out on everyone's favourite part of an event – the food! O&B can deliver meals and snacks directly to your attendees' doorsteps.

Let guests get in on the fun virtual chef classes, or a live-streamed cocktail building session to kick off a virtual happy hour!

Speak to your event specialist for a complete list of offerings, and custom menu solutions. Here's a sample of what your virtual menu could look like:
